Colorado Tele-Legal Partnership

A Medical Legal Partnership collaboration between AF Williams, Farley Health Policy Center and Colorado Legal Services

What is a Medical Legal Partnership?
An MLP is partnership between the medical community and legal community to improve health of low-income and elderly patients by addressing the legal needs that impact health.

How does it work?
Patients are screened for legal needs and referred to an attorney for help with legal issues that will help improve health outcomes and provide access to legal assistance.

Areas an attorney can help with:
1. Housing
2. Utility Shutoffs
3. Public Benefits
4. Health Insurance
5. Family Law *related to domestic violence

How do I get help?
After you complete the screener form with your medical provider at AF Williams, an attorney and/or paralegal from Colorado Legal Services (CLS)* will contact you by phone or e-mail to schedule an intake call to collect information and discuss your legal issue.

CLS will review your income and assets to see if you qualify. CLS will also review your legal problem and determine whether resources are available to help. CLS is not always able to help, even if you are eligible, since staff and resources are limited. If you are eligible and accepted as a client, CLS will not charge you for its services.

Is my information confidential?
Yes. Any information you provide to CLS is kept confidential.

Location
All initial services and appointments will be provided remotely via telephone or video chat.
